# About CREGG Medical

CREGG Medical is a part of the CREGG Group which is in existence since 1993 and celebrates its 30 Year Anniversary in 2023.

The CREGG Group has grown to its current strong position by offering a diverse range of products and services (Care Services, Medical Products, Recruitment/Talent Acquisition, Coaching, Construction, Office rental etc.) to a broad customer base across both the Public and Private sectors.

In 2013 we setup CREGG Medical to complement our already existing businesses at that time to deliver a broad range of Class 1 & Class 2 Medical Devices to the Healthcare sector and Private individuals.

We at CREGG Medical are known for our high quality cost effective products and our exceptionally strong and highly responsive customer focused care.

The CREGG Group has offices in Shannon (Head Office), Galway, Cork, Roscommon, Limerick and Athlone.

## Our VALUES

We value our customers as people and treat them with Respect, Compassion and Dignity.

We act with the highest of integrity and guarantee high quality products and services.

We value our relationships with our customers and strive in developing long lasting relationships with those we serve.

## Elatex Combi

The novacare® Elatex Combi is a care overlay for the treatment and prophylaxis of decubitus. It is intended for use in household, nursing and clinical areas.

It can be used in standard beds, although it is best suited for use in hospital or care beds. Use in beds with adjustable sleeping surfaces is also possible. The novacare® Elatex Combi is an anti-decubitus overlay made of silicoized hollow polyester fibers and an Elatex foam combined to an overlay. The choice of materials and the type of construction meet the requirements for an anti-decubitus overlay in terms of functionality, medical efficacy and patient safety.

### Specification

Weight	5,6 kg
Dimensions	200 x 90 x 15 cm Cover
Materials	52% Polyester / 48% Polyurethane
Anti-Decubitus overlay	65%" Cotton, 35%" Polyester, siliconized hollow polyester fibers
Foam layer	33 kg/m <sup>3</sup> , 5 cm hight, Elatex foam

## Trinity Plus Overlay

Visco elastic foam mattress overlay

2-way stretch, waterproof, vapour permeable PU cover Improving patient comfort and maintaining skin integrity by reducing shear and friction forces whilst aiding infection control.

High frequency welded seams and a fully concealed zip which reduces the possibility of fluid ingress to aid infection control.

### Specification

Max user weight	135Kg / 21 stone
Product weight	3Kg - 8.5Kg
Dimensions single	86 x 198 x 10cm (34 x 78 x 4")
Dimensions double	137 x 198 x 10cm (54 x 78 x 4")
Fire retardancy	BS7177 Crib 5
Warranty	2 years

# Foam Mattresses

## Alerta Sensaflex 1000

ALT-1000 – Alerta Sensaflex 1000 – a high risk profiling foam mattress built with castellated foam. The sophisticated mattress design provides effective comfort, care and pressure redistribution for users in hospital, nursing and care home environments.

To launder the cover in a washing machine, set the main wash to 65°C for no less than 10 minutes or 95°C for no less than 3 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C. The foam can be autoclaved at 134°C.

### Specification

Mattress dimensions	198 x 90 x 14 cm (78 x 35.5 x 5.5")
Max load capacity	180kg (397lb)
Min load capacity	40kg (88lb)
Fire retardancy	BS7177 Crib 5

- Multi-stretch and vapour permeable PU cover
- Water resistant and machine washable cover
- Antimicrobial cover with white underside

## Carefree

Pressure reducing foam mattress replacement

The Carefree replaces a standard mattress. It comprises of castellated foam to help provide pressure reduction.

The mattress replacement is ideal for patients considered to be up to high risk of pressure ulcer development and can be used in a community and long term care setting.

Available in single and double sizes to provide flexible care options.

2-way stretch, waterproof, vapour permeable PU cover Improving patient comfort and maintaining skin integrity by reducing shear and friction forces whilst aiding infection control.

A toughened PU base protects the mattress when used on an electric bed.

### Specification

Max user weight	260 kg / 41 stone
Product weight	8Kg
Dimensions	36 x 78 x 6" Single 54 x 78 x 6" Double
Fire retardancy	BS7177 Crib 5
Warranty	2 Years

# Foam Mattresses

## Community Plus Mattress

The Community Plus Mattress is a higher quality mattress but remains very cost-effective.

The mattress foam is thicker than the Community mattress and is highly resilient, providing better pressure distribution and extra comfort.

Comes complete with a four-way stretch, antibacterial, water resistant and washable PU coated cover.

Additional sizes available on request.

### Specification

Mattress dimensions	2000 x 900 x 150 mm 2000 x 1200 x 150 mm 1900 x 900 x 150 mm
Mattress weight	8.5 Kg
Max user weight	190 kg / 30 stone
Waterflow score	15 - 19
Foam density range	31 - 34 kg/m <sup>3</sup>
Foam hardness range	100 - 130N
Fire retardancy	BS7177 Crib 5

## Trinity Plus Premier

Visco elastic foam mattress replacement

The Trinity Plus Premier replaces a standard mattress. It comprises of a castellated visco elastic foam insert to provide pressure redistribution by conforming to a users weight and temperature.

The mattress also features a reinforced base and side wall.

The mattress replacement is ideal for patients considered to be up to very high risk of pressure ulcer development and can be used in a community and long term care setting.

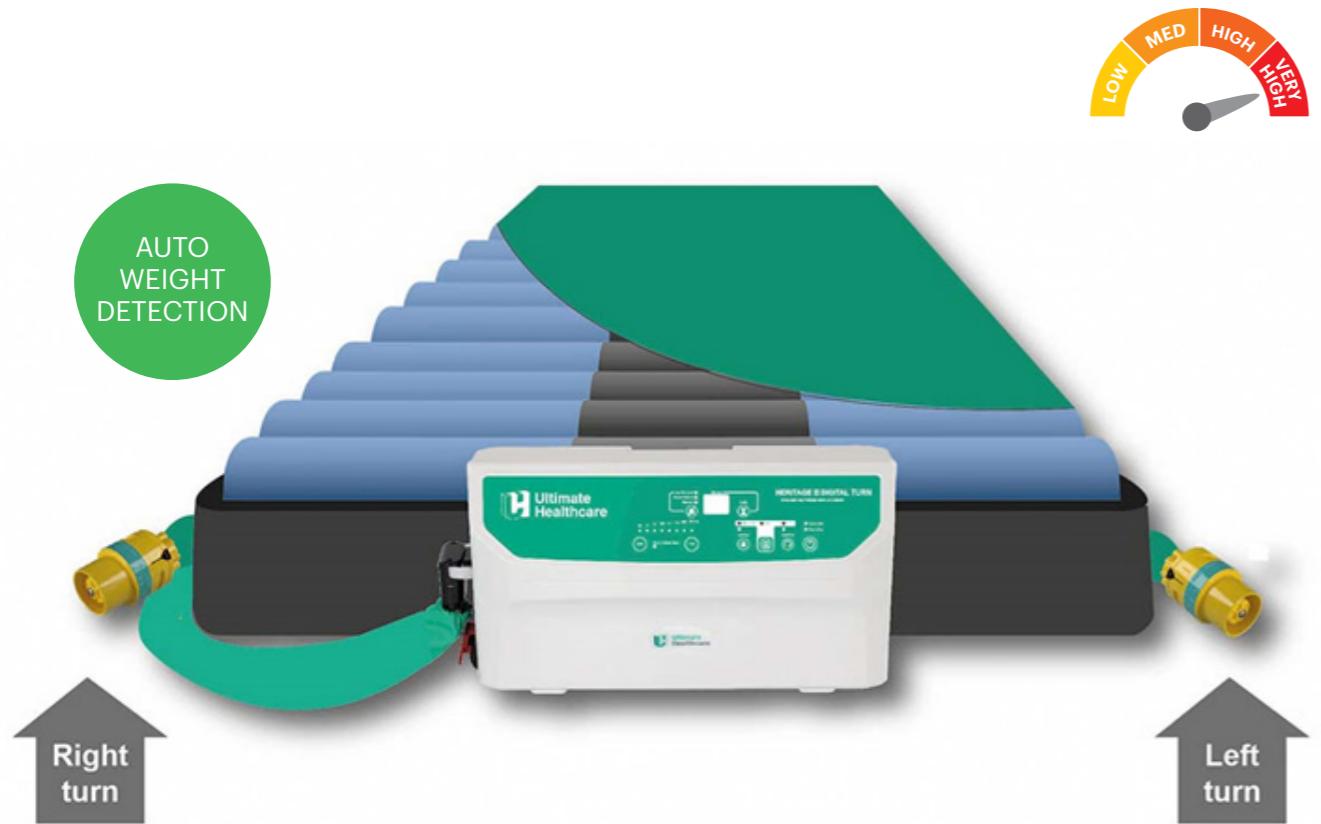

Available in single and double sizes to provide flexible care options.

### Specification

Max user weight	260Kg / 41 stone
Product weight	13Kg
Dimensions single	91 x 198 x 16cm (36 x 78 x 6")
Dimensions double	137 x 198 x 16cm (54 x 78 x 6")
Fire retardancy	BS7177 Crib 5
Warranty	2 years

# Dynamic Air Mattresses

## Heritage II Digital Turn

The Heritage II Digital Turn Dynamic Mattress Replacement system provides very high optimal therapy for the prevention and treatment of pressure ulcers in any care environment. Manual turning of patients can be intrusive, especially during the night and often results in disturbed sleep.

The Heritage II Digital Turn mattress can reduce the care package required. The mattress has the option of right and left or bilateral turn to assist in a manual or provide automatic turning at variable times between 10 - 30 minutes

### Specification

Max user weight	240 kg / 40 stone
Product weight	7.4kg
Mattress dimensions	2000 x 890 x 200 mm
PU dimensions	360 x 130 x 230 mm
Cell material	Nylon PU
Cover material	Polyester PU
Cycle time	10 / 15 / 20 / 25 / 30 mins (2 cell cycle)
Warranty	2 years

## Tamora Plus II Digital

Dynamic Mattress Replacement

### Features

#### Mattress

- Integral 2" foam base
- Static head cells
- Premium quality TPU coated nylon cells
- CPR release valve
- Strong cell retention knitted bands
- Maximum patient weight 200kg / 31.5 stone

#### Cover

- Soft, waterproof vapour permeable PU cover
- 360 degree zipper
- Welded seams and enclosed zip
- Integral covered air pipe
- Cable management system

### Specification

Max user weight	200 kg / 31.5 stone
Product weight	8.9 kg
Mattress dimensions	2000 x 850 x 180 mm
PU dimensions	320 x 130 x 230 mm
Cell material	TPU
Cover material	Polyester PU
Cycle time	10 / 15 / 20 / 25 / 30 mins (2 cell cycle)
Warranty	2 years

# Dynamic Air Mattresses

## Tamora III Advance

Dynamic Mattress Replacement

### Features

#### Cover

Soft, waterproof vapour permeable PU cover:

- 360 degree zipper
- Welded seams and enclosed zip
- Integral covered air pipe
- Cable management system

#### Mattress

- Cell-on-cell construction
- Static head cells
- Low air loss - Micro-climate control
- CPR Valve
- Durable cell retainers
- Maximum patient weight 255kg / 40 stone

### Specification

Max user weight	255 kg / 40 stone
Product weight	10.4kg
Mattress dimensions	2000 x 900 x 200 mm
PU dimensions	360 x 130 x 230 mm
Cell material	TPU
Cover material	Polyester PU
Cycle time	10 / 15 / 20 / 25 / 30 mins (1 - 3 cell cycle)
Warranty	2 years

## ASX Digital

### Specification

Max user weight	200 kg / 32 stone
Product weight	7.2kg
Mattress dimensions	2000 x 880 x 155 mm
PU dimensions	300 x 180 x 120 mm
Cell material	PU Nylon
Cover material	PES Polyurethane
Warranty	2 years

# Hybrid Mattresses

## Alerta Sensaflo-hybrid

The Alerta Sensaflo Hybrid is the world's first 4 in 1 hybrid mattress with foam-filled air cells, SensaGel adaptive foot cells and 150mm (6") deep air cells for effective prevention and treatment of users up to very high risk of developing a pressure ulcer.

### Specification

Mattress dimensions	198 x 90 x 15 cm (78 x 35 x 6")
Mattress Weight	15.5kg (34lb)
Cell Structure	Foam-filled air cells and SensaGel adaptive foot cells
CPR	Quick release
Max Load	250kg (551lb)
Heel function	4 adaptable individually removable gel-foam cells

## Diversi-foam hybrid

Bariatric mattress replacement system

The Diversi-foam bariatric mattress replacement hybrid system combines static and dynamic alternating mattress technology.

The design provides highly effective care and protection for patients up to a very high risk of pressure ulcer development when in dynamic mode and up to high risk when in static mode.

### Features

#### Mattress

- 7 pairs of air cells
- Static head cells
- Dual cells (foam within the air cell)
- CPR release valve
- TPU air cells
- Foam mattress walls with cutouts
- Maximum patient weight 380kg / 60 stone

### Specification

Max user weight	380 kg / 60 stone
Product weight	25 kg
Mattress dimensions	1980 x 1200 x 150 mm
PU dimensions	265 x 175 x 90 mm
Cell material	TPU
Cover material	Polyester PU
Cycle time	12 mins (1 - 2 cell cycle)
Warranty	2 years

## Alerta Bariatric 2

ALT-9300 – Alerta Bariatric 2

A replacement alternating pressure relieving mattress system with cell-on-cell air cells, a static base section and an in-use height of 10" for effective prevention and treatment of bariatric users up to very high risk of developing a pressure ulcer in hospital, nursing and care home environments.

### Key Features

- 350kg weight capacity
- Pillow function
- CPR release
- Anchoring straps for securing to bed
- Robust pump connection
- Transport mode
- Individually removable heel cells to create zero pressure under the heel
- Seat inflation feature for additional support when sitting upright
- Digital user weight input

### Specification

Mattress dimensions	200 x 120 x 25 cm (78.5 x 47 x 10")
Mattress Weight	12.5kg (27.6lb)
Cell Structure	Cell-on-cell
CPR	Quick release toggle
Max Load	350kg (772lb)
Heel function	3 x heel cells with one way valves

## Carefree Bariatric

Pressure reducing foam mattress replacement

The Carefree Bariatric replaces a standard mattress. It comprises of a foam insert to help provide pressure reduction and features a reinforced core, base and side wall.

The mattress provides comfort and protection for the larger patient weighing up to 318kg/ 50 stone.

2-way stretch, waterproof, vapour permeable PU cover - Improving patient comfort and maintaining skin integrity by reducing shear and friction forces whilst aiding infection control.

### Specification

Max user weight	318 kg / 50 stone
Mattress dimensions	122 x 198 x 20cm (48 x 78 x 8")
Product weight	32kg
Fire retardancy	BS7177 (Crib 5 Composite)
Warranty	2 years

# Bariatric Mattresses

## Heritage II Bariatric

Bariatric Dynamic Mattress Replacement

The Heritage II Bariatric dynamic mattress replacement provides optimal care for patients weighing up to 350kg / 55 stone.

With a 1200mm width surface and comfort control features the Heritage II Bariatric provides comfortable care options for larger patients considered to be up to a very high risk of pressure damage.

### Specification

Max user weight	350 kg / 55 stone
Mattress dimensions	2000 x 1200 x 200mm
Power unit dimensions	360 x 130 x 230mm
Product weight	0.9kg Mattress 4.6kg Power Unit
Cell material	TPU
Cover material	Polyester PU
Cycle time	10 / 15 / 20 / 25 / 30 mins (2-cell cycle)
Classification	EN 60601-1 EN 60601-1-2
Warranty	2 years

## Trinity Plus Bariatric

Pressure reducing visco elastic foam mattress replacement

The Trinity Plus Bariatric replaces a standard mattress. It comprises of a visco elastic foam insert to provide pressure redistribution by conforming to a user's weight and temperature.

The mattress also features a reinforced core, base and side wall and provides comfort and protection for the larger patient weighing up to 318kg/ 50 stone.

The bariatric mattress replacement is ideal for patients considered to be up to a very high risk of pressure ulcer development and can be used in a community and long term care setting

### Specification

Max user weight	318 kg / 50 stone
Mattress dimensions	122 x 198 x 20cm (48 x 78 x 8")
Product weight	32kg
Fire retardancy	BS7177 (Crib 5 Composite)
Warranty	2 years

## Lomond Standard

The Alerta Lomond Standard Bed provides the perfect balance between budget, functionality and quality, and comes with the added benefit of Trendelenburg and reverse Trendelenburg tilting feature.

The bed has a 3 year warranty on the bed frame and 2 years on the motors and electrics. It can be dismantled for storage or transporting and is available in Oak and Walnut wood finish.

### Specification

Max. Safe Working Load	200 kg
Height Adjustment	40 - 80 cm
Outer Dimensions	102 x 213 cm

## Lomond Floor

The Alerta Lomond Floor 2 Bed is a unique ultra-low bed for pioneering user safety and care.

It has all the features of the Lomond Low and comes with the added benefit of its height ranges going down to just 9cm from the ground, and auto regression backrest. This facilitates the most specific and complex care requirements, while also reducing impact if the user rolls out of bed

### Specification

Max. Safe Working Load	200 kg
Height Adjustment	9 - 70 cm
Outer Dimensions	102 x 213 cm
Mattress Platform Dimensions	90 x 200 cm

## Cura Community

Electric profiling bed

### Features

- 4-section electric profiling with variable height control adjustments
- Autoregression backrest
- Trendelenburg and reverse trendelenburg
- Integral bed extension of 140mm
- Handset control with function lockout
- One-button auto-contour positioning
- Bed easily disassembles into 4 parts for improved transport and installation access
- Compact transport and storage system
- Convenient transport bracket storage underneath bedframe
- Bed platform can be positioned at a height of 340mm above floor level
- Powered calf lift
- Mattress retainers
- Slatted mattress platform
- Excellent ground clearance
- Easy to operate individually braked castors
- Optional battery back-up
- Fitted with quality Linak controls and push only actuators

### Specification

Height max	740 mm
Height min	340 mm
Trendelenburg	12 degrees
Reverse Trendelenburg	12 degrees
Safe working load	250kg / 39 stone
Max patient weight	215kg / 34 stone

## Soprano

Ultimate Bariatric Bed

### Features

- Electric profiling with variable height control and adjustment
- Auto-regression backrest
- Auto-contour function
- Integral bed extension of 150mm
- Height range from 240 to 680mm
- Detachable side rails
- Mattress retainers
- Slatted mattress platform
- Excellent ground clearance
- Easy clean, low maintenance
- Easy to operate individually braked castors
- Maximum patient weight 350kg (55 stone)
- Safe Working Load 385kg (60 stone)
- Trendelenburg and reverse trendelenburg

### Specification

Height max	680 mm
Height min	240 mm
Back rest angle	0 - 72 degrees
Thigh rest angle	0 - 33 degrees
Safe working load	385kg / 60 stone
Max patient weight	350kg / 55 stone

# Bed Accessories

## Overbed Tables

ALT-GL-O – Overbed Table, Oak

ALT-GL-W – Overbed Table, Walnut

The Alerta Gas Lift Overbed Table features an easy lift handle to adjust the table height with minimal effort.

It is finished in oak or walnut and comes with brakes on the two rear castors. The table has a laminate top and comes with a wheelchair accessible base design.

### Specification

Max weight capacity	15kg
Height adjustment range	80 - 105cm
Table top dimensions	80 x 40cm

# Cushions

## CareFree Foam Cushion

Pressure Reducing Foam Cushion

The Carefree Cushion reduces pressure ulcers by re-distributing body weight.

Available to fit both wheelchairs and lounge chairs the Carefree Cushion provides a comfortable cost-effective option for pressure reduction in patients considered to be up to a medium risk. Used in combination with a Carefree Mattress provides a 24-hour pressure care package.

The 2-way stretch, waterproof and vapour permeable cover promotes comfort and assists infection control.

### Specification

Max user weight	95 kg / 15 stone (2") 140 kg / 22 stone (4")
Cushion dimensions	43cm x 43cm x 5cm 43cm x 43cm x 10cm 51cm x 51cm x 5cm 51cm x 51cm x 10cm
Fire retardancy	BS7177 (Crib 5)

## Supreme Trinity

Pressure Re-distributing Foam Cushion

The Supreme Trinity cushion incorporates a combination of visco elastic and CMHR foam providing excellent pressure re-distribution coupled with offering high levels of patient comfort.

The CMHR foam base offers strength and support and prevents the cushion from "foam fatigue".

### Specification

Max user weight	178 kg / 28 stone
Fatigue class	Severe
Foam density	29-31 kg/m <sup>3</sup>

## Viola II Cushion

Dynamic Cushion

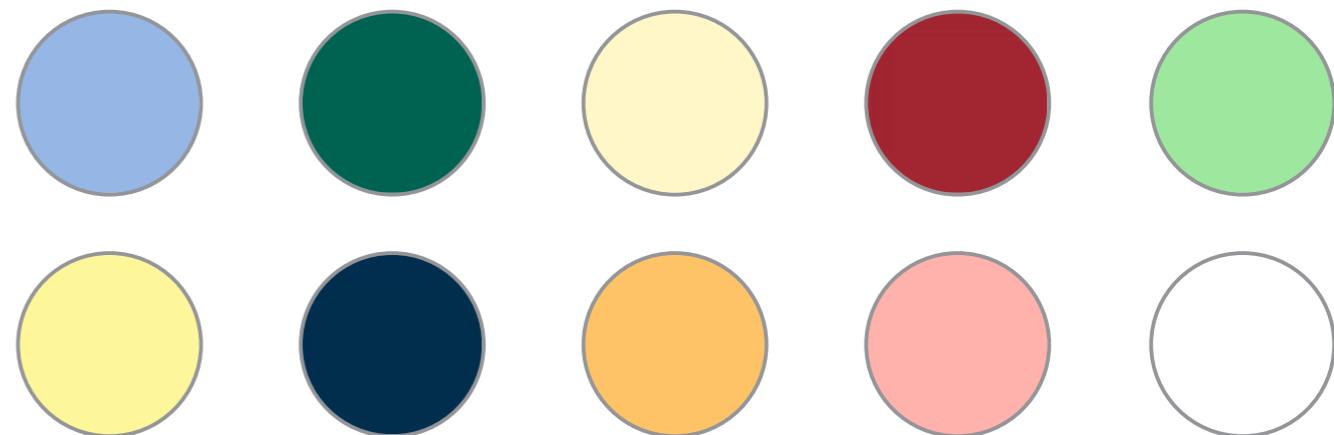

The Viola II dynamic cushion offers continuous pressure relief and support for seated patients at a Very High Risk of developing pressure ulcers. When combined with an Ultimate Healthcare dynamic mattress system the Viola II offers an affordable preventive package around the clock.

Offering high levels of patient comfort and pressure relief the Viola II can support patients up to 220kg and can be used on a range of chairs.

### Specification

Alternating Cycle	Moulds to patient shape, providing excellent comfort & pressure re-distribution properties.
Comfort control	Manual pressure adjustment allows the system to be set-up for optimal performance to suit individual patient comfort or clinical requirements.
Audible & visual alarms	Low pressure and power failure alarms enhance patient safety and ensures peace of mind for nursing staff.

## Flame Retardant Polyester Bedding

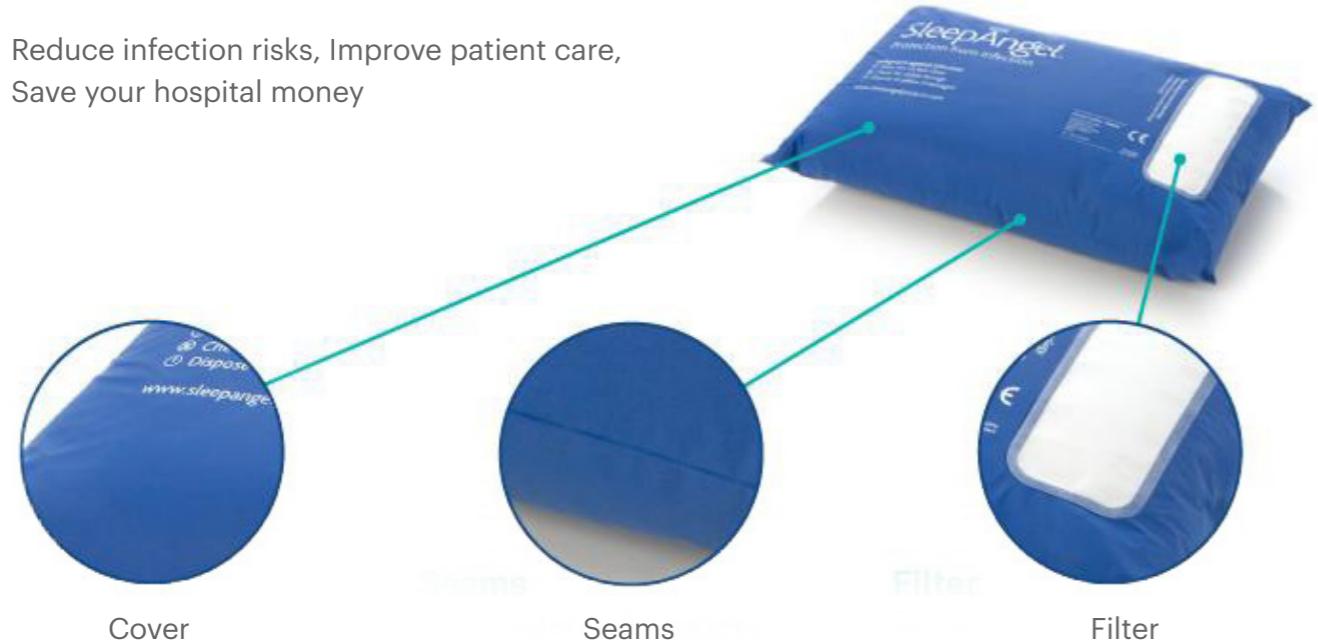

MIP's polyester bedding is easy to process and Flame Retardant to British Standard BS.

Available in all sizes and colours

## Sleep Angel Medical Pillow

Reduce infection risks, Improve patient care,  
Save your hospital money

Virus and allergen free pillow for your risk-free rest and recovery SleepAngel is a hermetically sealed cushioning device with PneumaPure filter technology to fight healthcare-associated infections (cross-infection between patients) as it stays clean inside and the external cover can be disinfected without dry cleaning or machine wash (or the need of additional protective covers).

SleepAngel pillow is an effective barrier to allergens, pathogens, viruses (incl. Coronavirus), mould and bugs (bed bugs, dust mites).

### Cover

Durable, soft touch fabric that is waterproof and stain resistant, yet vapour permeable for comfort.

### Seams

Seams welded on all sides, not a stitch in sight, protects against ingress of microbes.

### Filter

Our award winning breakthrough. Allows clean air out and blocks hospital pathogens getting inside.

## Sleep Angel Medical Duvet

The SleepAngel® duvet provides a clinically proven barrier to contamination and features the patented PneumaPure™ filter technology.

This filter technology enables the pillow to ventilate, so it is comfortable, but prevents the passage of liquids and airborne pathogens that colonise the interior of standard bedding products.

### Specification

Filling	Soft thermo-bonded polyester wadding
Density	200g / m <sup>2</sup>
Thermal resistance	40 TOG
Standard size	138 x 198cm
Weight	1600g

## Wipe Clean Pillow

### Features

Fluid proof latex free, breathable pillows come with an impermeable cover and resilient polyester inner fill. By having a simple, wipe clean surface, these pillows and duvets require no laundering whilst being comfortable, hygienic and economical.

Flame Retardant to British Standard BS 7175.

## Evacuation Sheets

**Fire Evacuation Sheet**

The Fire Evacuation Sheet is designed to be used in conjunction with standard foam mattresses. During evacuation the straps are secured around the mattress and patient who is then evacuated to safety.

This sheet features a silicone coated side to aid swift and easy movement of the device across all surface types.

The red polyester fabric is Fire Retardant and extremely strong and has been vigorously tested.

### Evacuation Sheet for Active Mattress

This Evacuation Sheet is designed to take an active air mattress. In the event of an evacuation the service user is secured to the mattress using the straps on the evacuation sheet and moved to safety along with the mattress. Suitable for both Replacement and Overlay mattresses.

The red polyester fabric is Fire Retardant and extremely strong and has been vigorously tested.

**Wall Mounted Evacuation Mattress with Storage Bag**

This popular product includes a storage bag and is designed to be mounted on a wall until needed. The Wall Mounted Evacuation Mattress includes a 50mm foam base to support the patient during evacuation. During evacuation the patient is placed on the mattress, secured using the straps provided and evacuated to safety.

The red polyester fabric is Fire Retardant and extremely strong and has been vigorously tested.

## Birdie Evo Hoists

### Specification

Birdie Evo	
Lifting range	415 - 1660 mm
Safe working load	180 kg
Turning diameter	1400 mm

Birdie Evo Compact	
Lifting range	530 - 1590 mm
Safe working load	150 kg
Turning diameter	1070 mm

Birdie Evo Plus	
Lifting range	415 - 1660 mm
Safe working load	180 kg
Turning diameter	1400 mm

### Options and accessories:

- Electrical or mechanical leg spread
- Electrical or mechanical emergency lowering
- Snap lock for optimal security
- Selection of 2 point or 4 point spreader bars in various sizes
- Extensive range of durable slings available in various sizes, styles and fabrics
- Lever for mechanical leg spread
- Homecare or medical class scale

## Blue Flyer Hoists

These mechanical and electrical opening legs versions are extremely easy to use and specially designed to perform secure and comfortable transfers for most patients (180 kg weight capacity with an 8000 N actuator).

A mountable NAUSICAA weighing system to determine the patients weight.

### Specification

Battery	Lithium Ion
Cycles	up to 84
Warranty	2 years

## Olympic 180 Hoists

The Olympic 180 Hoist benefits from the rigorous ergonomic design procedures and quality checks.

It has been constructed from high quality powder coated steel that will provide years of reliable service.

The hoist boasts an impressive 180kg lifting capacity, powered leg opening and market leading Linak® actuators and motors.

## Way Up 5 Hoists

### Specification

Safe Working Load	180kg (28 Stone)
Lifting Range	1755mm
Product Length	1265mm
Product Height	1335mm (lowest) 2010mm (highest)

Leg Inside Width	490mm (closed) 1075mm (open)
Castor Size	75mm (Front) 100mm (Rear)
Carrier Bar Type	3 Hooked safety attachments for loop slings

This mechanical or electrical opening legs version makes it easy to fit around armchairs or wheelchairs.

Both models are perfectly adapted to efficiently perform a change of the patient's lower body and can be used as a walking aid by removing the foot platform.

### Specification

Battery	Lithium Ion
Cycles	up to 312
Warranty	2 years

## In Chair Hammock Sling

The In Chair Hammock Sling is designed to provide full support to the neck, back and shoulders.

Comes with hip straps, pommel and pockets to tuck lifting straps into

### Specification

Safe Working Load Polyester	400kg (62 Stone)
Safe Working Load Super Soft	300kg (42 Stone)

## Stand-aid Sling

The Stand-Aid Sling is designed to assist with the standing process using a hoist.

It is fully padded with non-slip mesh and adjustable body belt for added security

### Specification

Safe Working Load Polyester	400kg (62 Stone)
--------------------------------	------------------

## Toilet / Dress Sling

- Weight: 15.6 kg
- Max loading weight: 110kg

## Bed Pressure Mat

The air-filled pressure mat is placed under the mattress and is connected to the control box.

As someone gets out of bed the reduction in air pressure in the pressure mat is detected by the control box. The red light on the control box turns on and the alert is triggered.

The Airlert™ Chair Pressure Mat alerts as soon as someone gets out of a chair. The mat can be positioned above or below the seat cushion depending on the type of chair.

## Crash Mats

Crash Mats provide added safety on the floor around the bed.

Folding Crash Mats offer the same level of safety as the standard product, but with the advantage of being folded and easily stored when not in use.

## Cambridge Chair

Wilcare's best selling two-motor hoist friendly chair, ideal for healthcare environments. This model features easy-to-clean vinyl fabric with contoured foam backrest and built-in pressure care seat.

## Haven Chair

Haven Retro styled design, beautifully tailored, haven is elegantly contoured, compact and practical in every way.

The design features the accentu8 'ripple' cushion back as a modular, flexible and supportive solution to the traditional 'waterfall' back.

Haven evokes a sense of nostalgia with a classic Scandinavian touch for a timeless modern look and a modern feel.

## TV / Media Protection

Our range of TV and Media protection cabinets feature lockable screens constructed from high quality polycarbonate which is safe and immensely strong.

As well as offering full protection to TVs and other media devices in challenging environments, their domestic, elegant design also goes a long way towards creating a welcoming, homely atmosphere.

And as our customers have such an interesting variety of things to protect and display (we've even made fish tank protection units!) we also routinely produce bespoke one-off cabinets to really personalise your media protection.

## Lounge Seating

The Corfton Sofa is a stylish compact sofa with loose seat and back cushions designed to be used in challenging behaviour environments. The settee features piping to the cushions and has hidden staples and tamper resistant screws where visible.

We offer the chair in a wide range of waterproof fabrics and vinyls. Complies with BS 7176:2007 Medium Hazard ( Crib 5 ).
