

ALT-BE011 Alerta Aluminium Shower Stool with Back

The **Alerta Aluminium Shower Stool with Back** enjoys a simple but cosmetically attractive design providing quality and comfort, with a lightweight aluminium frame. It is the perfect companion to aid support and transfer whilst showering, benefitting from adjustable height for ease of use, integral handles, and the added safety features of moulded drainage holes and non-slip rubber feet.

Constructed from corrosion proof materials, extra stability is afforded with angled leg design and suction style foot tips. It also benefits from a left and right-hand side built in shower head holder.

The Alerta lightweight Shower Stool also features a wide back rest, giving excellent back support, a feeling of security and a comfort-enhanced washing experience.
